

LEGEND **FLEET SOLUTIONS**

VAN WALL, CEILING & DOOR LINERS

PROTECT YOUR INVESTMENT WITH INSULATED DURATHERM LINERS

- **Durability** – protects against the roughest wear and tear on van panels
- **Increase Resale Value** – prevent van panel and wrap damage, vehicles in excellent condition at end of life cycle
- **Temperature Control** – liner insulation creates thermal barrier
- **Sound Deadening** – reduce road noise and rattling
- **Clean, Professional look** – enhances workspace for drivers and elevates brand image; available in White and Grey

DURATHERM Wall Liner enables the mobile workforce to do their job even better by maximizing the safety and protection of the interior of cargo vans and their operators.

The ride is quieter, the temperature is moderated, the vehicle is protected, and it finishes the vehicle with a clean professional look.

LEGEND **FLEET SOLUTIONS** FLOORING SOLUTIONS

RIGID FLOORING - *A rigid floor eliminates the unevenness of the factory steel floor and creates a flat, safe working area.*

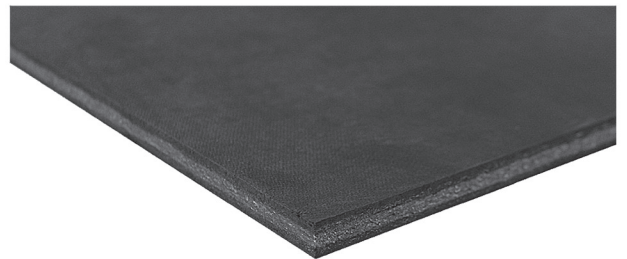

KK-PLUS

This is a 9 ply birch hardwood that is ½ inch thick and extremely rigid. The top and bottom are coated with a durable phenolic resin coating that has a textured surface to make it non-slip. The KK-Plus is very thermally stable and has excellent pull strength, making it an excellent option when fastening equipment to the floor.

STABILIGRIP

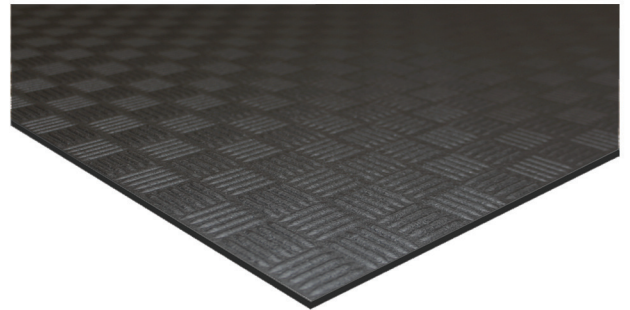

The industry's only dimensionally-stable, composite rigid flooring. Using substantially improved durability and strength, Stabiligrip offers maximum efficiency and safety for technicians and the fleet vehicle. Its increased strength, fortified by glass fiber, creates an absolutely impact and puncture resistant floor to protect from damage. Built with the toughest proprietary blend of recycled products, its versatility can be used in a wide variety of applications. A fine texture gives high grip but smooth cargo loading with a COF of 8.7 compared to 2.4 industry average.

RUBBER MATS - *Our non-slip rubber flooring products will protect your precious cargo and your employees as well.*

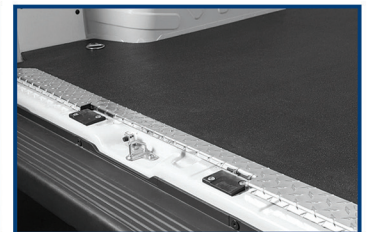

AUTOMAT-BAR

This hard-wearing ¼ inch rubber mat is extremely durable. The checkerplate pattern provides excellent grip reducing shifting cargo. The one piece construction enables you to have a seamless mat, easy installation, and easy removal for cleaning. This mat is impervious to water and is chemical resistant, making it perfect for many applications.

ALUMINUM DOOR SILL PLATES

The floor in the doorways is always the area that gets the most abuse during the workday and when loading objects in the vehicle. Legend has sills to protect the floor at the side and rear entrance to the cargo van. Made from high-grade aluminum, these sills are good for any application, especially when loading with a forklift. A raised finish also ensures excellent grip.
